Old before her time and afflicted with a myriad of medical problems, Noel Gatsby retreats into her "wishful-thinking" dreams every night. Desperate to escape the circumstances of her life, she imagines a world where all of her pain and suffering stops, to be replaced by the vigorous health of her youth. Yet each morning she awakens to the misery of her real existence, consumed by pain and depression.

Then one night her dreams come true.

Noel is transported to another world, where healing hands work their magic on her tired body. She awakens without pain, filled with an exuberance and joy she never thought to experience again.

Her unique affinity with the handsome Pim Grady gives her hope for the future, although their blossoming love is tempered by knowledge of their shared and secretive dreams.

Noel soon learns her miraculous recovery comes at a price...

### Bloodfrost Q&A:

In *Bloodfrost*, Noel questions the existence of God prior to her healing, and then afterward wonders if it is God or the Devil responsible for her miracle cure. Did you ever wonder about the same issues, or is the speculation purely fictional?

*Noel Gatsby scoffs at the notion that "God only gives you as much as you can handle." In her mind she's endured more than her fair share of pain and suffering, so her belief in God is shaky at best...*
